

The Constitution Is the Solution!

Fixing America Starts With Education

Most Americans are not taught what's in the Constitution, nor are they aware of its limitations on government that have helped make America great.

In this series of DVDs, you will learn how the Constitution was intended to secure rights, not to enable the federal government to violate those rights.

You're invited to attend a six-part workshop based on these DVDs that will provide you with a practical, common sense understanding of how the Constitution was intended to limit the government, not the citizens. This understanding will equip you to work with others to solve many of the problems Americans face every day that were created by Big Government.

Are you conversant enough with our founding document to promote key constitutional principles? Are you able to defend the Constitution from the attacks by those who are proposing to rewrite the document?

This series examines the original intent and philosophy of limited government espoused by our founding fathers and exposes the people and organizations that are working to destroy our nation. It shows how our greatness as a nation is linked to our ability to obey the Constitution and restrain the powers of government.

This is not a clause by clause academic course. It is designed to give you a clear, practical understanding of the forces at work destroying our Republic and how we must restore sound constitutional government.

The workshop consists of six parts. We will view and discuss three parts at each Saturday session. Handouts and outlines will be provided.

Each Saturday session will include DVD presentations and group discussion.

Topics include:

- Part I: The Dangers of Democracy
- Part II: Enumerated vs. Unlimited Power
- Part III: Constitutional Economics, Constitutional Money
- Part IV: Constitutional War Powers and the Enemy Within
- Part V: Exposing the Enemies of Freedom
- Part VI: Restoring the Constitution: Taking Effective Action

*"If it be asked, what is the most sacred duty and the greatest source of our security in a Republic?
The answer would be, an inviolable Respect for the Constitution and laws."*

- Alexander Hamilton
